The CELVIANOs elegant design houses rich tones and natural acoustic key touch made possible by years of painstaking refinement that has made the CELVIANO what it is today. I have had this keyboard for over two decades and it has never let me down. Cosmetically there is little, if any, noticeable wear, but there is some dust that has collected in various hard-to-clean spaces. Operationally I do not want to oversell this item. Keyboard technology has come a long way since it was manufactured and even at that time this unit was only considered entry to midlevel in terms of capability. The keys are non-weighted and very light to the touch and there are no dynamics or

velocity sensors. The sample quality of the major instruments piano, electric piano, harpsichord, and organ are decent. The one unique feature is the units ability to layer two instrument samples together on the fly to create up to 210 different composite sounds. Unfortunately I am no longer in possession of the keyboards manual. Please note that you might have to turn the connector in the power port in order for a connection to be made while the adapter meets the power specification. Payment I only accept PayPal.
